It was a place of much beauty, with parks, drives and finer shade trees than are usually found in Spain. It was taken by the troops under Don Carlos. The recent atro ities of the Carlists are quite sufficient to create a reaction against them. The movement of Mexican troops

towards the Texas frontier is regarded as insignificant. No local necessities call for such action, and when the choice of Escobedo as the leader is considered, something of importance may be looked for. The late raid of U.
